2010-2012

BEETROOT ACADEMY

Junior front-end developer

2019-2020

PURPOSE

Hello, my name is Sergey. I am a beginner front-ender. I am a switcher. My purpose is to become a JS developer. Namely, to work with the React.js & Vue.js frameworks. It is this direction that I like the most in a large selection of possible front-end directions. A huge desire to learn and develop in this sphere, where mental work is appreciated. The desire to find work with a smart, friendly and responsive team.

WORK HISTORY

HEAD OF THE POWER SUPPLY SECTION AT "ZORYA-MASHPROEKT"

(2017—2020)

- ensuring uninterrupted power supply of the enterprise;
